in: Canon Expansions

Nemeton

EDIT

This article is an expansion based on a canon element. For canon information on this topic, follow the link to The Witcher Wiki: [Nemeton](#).

This article is part of the [Neververse Expanded Universe](#). Unless you are a *Neververse Sapkowski Scholar*, enjoy but do **not** edit.

Nemeton (pl. *nemeta*) are entities that resemble tall black oaks that glow with a sinister red light from within. Known among scholars as *Quercus malignus rubra*, among common folk as *witch trees*, these "trees" are a mystery on more than one level.

Active Nemeton

Immunity	Water, Wind
Susceptibility	Fire
Tactics	Force

Facts 🔑

- Nemata resemble trees.
- Not every Nemeton encountered is "active". Inert ones have been encountered (and destroyed).
- "Active" Nemata attract monsters to themselves. The monsters close to a Nemeton become non-hostile to other monsters of its kind, but remain hostile to any non-monstrous being.
- Inert Nemata can grow to obscene sizes.

Theories 🔑

- Some mages claim that one can draw from a Nemeton like one can from a *Place of Power*, but that the power absorbed is, quote, "evil and malignant".
- In the same vein, some magically inclined individuals suggest that Nemata are planted with a sinister purpose and may serve some kind of inhuman agenda.
- Those that exterminated Nemata insist that they may look like trees but are, in fact "something far too animate to be a tree".
- Common superstition say that Nemata are planted by evil witches and serve as cornerstone to dark rituals.
